BY CAR OU MOTOR BIKE

For anyone who wants to get a great view of the Estérel range, but without going on a hike, you can travel along this panoramic route for a 12 km visit (one-way) through the heart of the range.

From the Agay roundabout, head for Saint-Raphaël along the inland road (Avenue du Gratadis) for about 1.5 km. Follow the signs to "Massif de l'Estérel" (to the right) and drive along the tarmac road with Mediterranean plant species on either side, as and flowering mimosas in winter, and go past the Gratadis forestry house. Follow the signs to "Pic de l'Ours". At the intersection, turn right and cross the ford, from where you will have a nice view over Lake Grenouillet. Continue upwards into the heart of the forest, winding your way through landscapes of red rocks. Then turn left to admire Cap Roux and its superb peaks in the distance. Here the road begins to give a glimpse of extraordinary sea views over the Corniche d'Or, and panoramas as far as Cannes and the Lérins Islands. The journey ends at Col Notre-Dame (dead end). All along the way, you will pass through many areas of scrubland (maquis) and Mediterranean forest with trees such as evergreen oak, cork oak, Aleppo pine, stone pine and shrubs such as strawberry trees, juniper and Montpellier cistus. Go back the same way to leave the mountain range.

1 ALONG THE COASTAL PATH

🕒 4 ½ hrs - 11km (one-way)

🏔️ 140 m *An energetic and steep trail*

Departure: Port de Santa Lucia

Access: We strongly recommend you use public transport to get to the hiking trail departure points, then to go back on foot (there is little public transport on the way back).

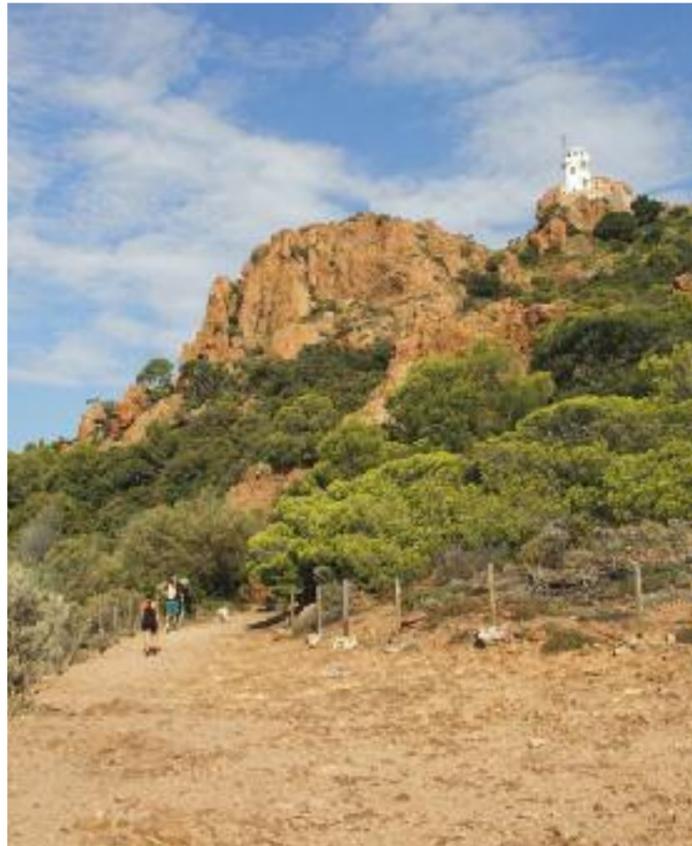

- From the centre of Saint-Raphaël, take bus n° 8 (at the Camp Long stop) or the train (the Agay stop), then come back on foot.

- From Agay, Le Dramont, take bus n° 8 (Saint-Raphaël "Gare Routière" stop) or the train (Saint-Raphaël Valescure stop), and then go along the Promenade des Bains as far as Port Santa Lucia, where the path begins, then come back on foot.

Route: Follow the path with yellow signposts. There is a break in the trail for 700m between Pointe de Pierre Blave and Plage du Débarquement, where you need to walk beside the road. During the hike, you'll alternate between red rock cliffs, creeks with jagged rocks and beaches that are ideal for a dip or a picnic break. On the way, you'll see typically Mediterranean vegetation, pines, aloes and Barbary fig trees that heroically grow on the rocks with their contrasting colours, bearing witness to the rich geological past of the coast (red rhyolite, esterellite in Le Dramont, sandstone).

So, it is hardly surprising that at the end of the 19th century, the bourgeois and aristocratic elites chose this unique coast to build residences in enchanting styles, which perfectly blend in with the highly irregular coastline and that we can glimpse at the end of the splendid gardens overlooking the path. The most spectacular part of the trail is probably Cap Dramont, with its cliffs and dizzying view over the Île d'Or.

Trail shown in pink on the map

CAP DRAMONT

PROTECTED BY THE NATIONAL FORESTRY OFFICE, OFFERS BREATHTAKING PANORAMAS OF THE RED-ROCK CLIFFS, THE ÎLE D'OR, THE BAY OF AGAY AND THE ESTÉREL. THE SÉMAPHORE AT THE TOP OF THE CAP WAS BUILT IN 1860 ON THE RUINS OF THE WATCHTOWER WHICH DATED BACK TO 1562. THE CAP IS BORDERED BY THE PLAGE DU DÉBARQUEMENT BEACH, WHERE THE AMERICAN SOLDIERS LANDED ON THE 15TH AUGUST 1944. THIS SHADED BEACH LOOKS OUT ONTO THE ÎLE D'OR.

2 CAP DRAMONT

🕒 2 hrs - 3km

🏔️ 170 m

Departure point: Camp Long beach

How to get there:

. By car: Take the coastal road towards Agay until you get to the Dramont. Turn right when you see the sign "Tiki Plage" and park in the car park at the end of Allée Robinson.

. By bus: Number 8 - Camp Long stop

. By train: TER 03 - Le Dramont stop

Itinerary: Join the path at the wooden barrier below the car park, then after 200m turn right onto the dirt path and continue as far as the tarmac track. At the 2nd bend, continue straight ahead and you can admire the view from the Battery over Agay Bay. Retrace your steps and follow the tarmac track up to the **Semaphore** (go round it on the right) and enjoy another breathtaking panorama.

Go down as far as the intersection and turn right along the tarmac track that looks down over the southern face of Cap Dramont. At the end of the track, before turning right onto the path that will lead you back to your starting point, take a detour to the left as far as **Port du Poussaï**, a typical and colourful little port.

Next follow the signs for "Pic de l'Ours" (8km).

Itinerary: A number of routes leave from Col Notre-Dame: follow the path with wooden arrows marked "Dent de l'Ours - Pic de l'Ours". The path climbs slightly at the beginning. Turn right at the intersection, and you will arrive at the foot of the Dent de l'Ours. At the rock, enjoy a breathtaking view over the bay of Cannes and the famous Lérins islands, with the bay of Fréjus and the Maures mountains in the distance. Retrace your steps, and after 20 metres turn right along the path going up towards the summit of the Pic de l'Ours. At a height of 492m it offers a stunning panorama of the Esterel. The flora is just as diverse: cork oak (dominant species), maritime pine, heather, strawberry trees. This environment is typical of the Mediterranean. Go past the transmitting antenna and continue about 50m on the road then take the path on the left which heads downhill (beware - steep path).
